JDS Metal Doorframes Concealed Doorframe

JDS Concealed metal doorframe profile is designed to achieve a contemporary seamless finish. The design allows for no architraves and complements a clean, modern aesthetic.

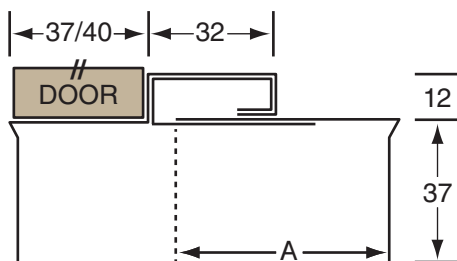

JDS Concealed frame interlock system patent pending

Technical Specifications

JDS Concealed metal doorframe is made from 1.05mm Zincanneal. The frames come in 6 separate pieces that are strapped together for transport. The frame is fixed through the perforated architrave and then plastered over for a seamless finish.

Prior to installing the frame ensure stud opening sizes are suitable for Concealed frames. For stud opening sizes add 33mm to your door HEIGHT and 25mm to your door WIDTH if using Hirline Hinges only* Example: Door size 2040 x 820mm, Stud opening 2073 x 845.

Available in 37 and 40mm door rebate to suit 35 and 40mm doors.

Door heights - 2040 and 2340mm

Door widths - 720, 820 and 920mm

Custom door sizes available upon request.

Available in a wide range of back openings to suit various stud and plasterboard configurations.

Concealed Frame Dimensions

Back Opening	A
80-95	40
90-105	50
100-115	60
115-130	75
130-145	90
145-160	105
160-175	120
175-190	135
190-205	150
205-220	165
220-235	180

Please note - Concealed frames are NOT supplied with hinges

- **Hirline hinges are fixed after installation (can be supplied by JDS upon request)**
- **Concealed hinges can also be supplied upon request. This will require frame modification and hinges to be supplied by JDS.**

***If you are using Concealed hinges, your stud opening width will be your door width plus 40mm for single doors and combined door width plus 60mm for double doors.**
